AmCham: Attractive for American companies ►

Economic cooperation between the USA and Europe is the key to sustainable growth and global competitiveness.

Germany remains one of the USA's most important trading partners. With a further reduction of trade barriers an economic growth of approximately 1.5 percent on both sides of the Atlantic is expected. This would set the stage for the creation of new jobs as well.

Office without Boundaries ◀▶

Back from the Future: with the end of the year in sight an approach to the search for limits of modern management!

What is reasonable for your company? Which level of detail should be applied when implementing modern theories of management in your company? What has been developed with a globally operating big enterprise might not be suitable for midsize and small companies.
